PRODUCT DATA SHEET

Product Code: FMPP-1070

Product Name: PP Filler Masterbatch

MANUFACTURED BY BLAU BATCH

BLAU BATCH supplies high-performance calcium carbonate filler masterbatches for polyolefin polymers. Our advanced formulation delivers excellent $CaCO_3$ dispersion and high loading, optimizing performance, enhancing production efficiency, and reducing costs.

General Description

This product contains: CaCO3, resin, and some additives. It's suitable for applications such as woven sacks, raffia, injection molding, sheets, thermoforming, blown film, and non-woven fabrics. Ideal where increased stiffness, improved processability, and reduced shrinkage are required without compromising basic mechanical performance.

Physical Properties

Property	Value
Carrier	PP
$CaCO_3$	70% ± 2%
Density @23 °C (Specific gravity)	2.1
MFI (2.16 kg/230 °C)	8 g/10 min
Moisture content	< 0.05

Technical Properties

Property	Value
Appearance (Surface color)	White
Additives	Dispersion agent, processing aid
Processing temperature (°C)	160–250
Expiry date	6 months
Packing	25 kgs per PP bag
Storage	Keep at dry condition

Method of Usage

Easy to disperse and homogeneous, Blau Batch Filler Masterbatch can be directly added or pre-blended with resin using dosing units. It avoids contamination and ensures smooth processing.

Caution:

This product may absorb moisture after long-term storage or contact with a moist environment. Please dry it in a dryer before use.
