INTRODUCTION

ABOUT US

Blau Batch is a technical manufacturer specialising in high-performance filler and additive masterbatch engineered for modern plastics production. We focus on delivering consistent **quality, reliable performance, and real cost efficiency** — the three factors that matter most to manufacturers in competitive markets.

Built on a foundation of engineering discipline and process control, Blau Batch develops masterbatch solutions that help clients **increase output, reduce production cost, and maintain stable quality** across every batch. Our products are designed for manufacturers who need dependable performance, whether operating in the MENA region, Europe, or global export markets.

We don't position ourselves as just another supplier. We position ourselves as a **technical partner** — providing the material solutions, expertise, and reliability that manufacturers need to scale and stay competitive.

CORE BUSINESS

With a strong focus on consistency, technical reliability, and value creation, Blau Batch offers:

- **Filler Masterbatch:** High-output, cost-efficient formulations designed to improve stiffness, optimise processing, and maintain stable quality across high-volume manufacturing.
- **Additive Masterbatch:** Performance-enhancing additives including UV stabilisers, slip agents, antiblock, modifiers, and processing aids — engineered to ensure smoother processing and improved end-product performance.
- **Custom-Engineered Solutions:** Tailor-made formulations designed to meet specific production requirements, enabling manufacturers to achieve consistent results and overcome processing challenges.

BRAND IDENTITY AGENDA

Aligning our mission, vision, values,
and brand messaging for success

- Define our mission and vision clearly for team unity
- Establish core values that guide our everyday operations
- Create a cohesive visual and verbal identity that resonates

VISION

To become a global benchmark in high-performance filler and additive masterbatch, enabling a more efficient, sustainable, and technologically advanced future for plastics manufacturing across MENA, Europe, and international markets.

MISSION

We engineer reliable, high-quality filler and additive masterbatch that enhances performance, reduces production cost, and delivers consistent technical value to manufacturers worldwide. Our mission is to combine material science, process discipline, and customer-focused innovation to support scalable, efficient, and competitive plastic production.

VALUES Quality · Efficiency · Sustainability · Innovation

LOGO USAGE

Ensure proper use of the logo by following guidelines on colour accuracy, scale, and white space.

LOGO USAGE & PLACEMENT

Spacing rule: maintain clear space = height of “B” in logo on all sides.

Minimum size: 25 mm width print / 120 px digital.

Incorrect usage examples:

1. Don't stretch or rotate.
2. Don't use drop shadows.
3. Don't place on complex photos.

Horizontal Logo

Logomark

- Clear space around the logo
- Acceptable color variations for backgrounds
- Minimum size requirements for visibility
- Avoid distortion or alterations
- Usage on different materials: print and digital

COLOR PALETTE

- Primary colors: Navy and Blue
- Secondary colors: Grey & White
- Emphasizing professionalism and reliability

GUIDELINES

USAGE RULES

Consistent usage of typography is crucial maintaining a minimalist approach across all platforms.

COLOR INTEGRATION

Typography should incorporate primary brand colors. Subtle gradients may be used to add depth without detracting from clarity.
