

BLAU BATCH

Official Distributor for Coraplast Masterbatch

PRODUCT CATALOG

Black Masterbatch · White Masterbatch · Custom Color on Request

Coraplast-formulated grades, distributed exclusively by Blau Batch in Egypt.

All products supplied in 25 kg bags. Samples available upon request.

2026 · Version 2.0

About This Catalog

What Blau Batch now offers through the Coraplast distribution agreement

Blau Batch is an Egyptian masterbatch manufacturer specializing in Filler Masterbatch. In 2026, Blau Batch became an official authorized distributor for **Coraplast**, a leading masterbatch manufacturer with a comprehensive range of Black, White, Colored, and Specialty Masterbatch solutions.

This catalog covers the primary product lines available through Blau Batch. For technical data sheets, application guidance, pricing, or sample requests, contact our team directly.

What We Offer	Details
Product Range	Black, White, Custom Color Masterbatch + Specialty Additives
Carrier Polymers	PE (LDPE, LLDPE, HDPE) and PP — available in both for most grades
Packaging	25 kg bags, regular pellet form
Typical Addition Rate	2–8% for Black/White · 1–3% for Additives
Compliance	RoHS 2002/95/EC · EU AP 89/1 (select grades) · US FDA (select grades)
Shelf Life	1–2 years when stored in dry conditions
Custom Color	Available on request — contact Blau Batch with your specification
Applications	Injection Molding · Extrusion · Blow Molding · Film
Pricing	All prices available upon request. Contact Blau Batch for current pricing.

Black Masterbatch

PE and PP based grades for injection molding, extrusion, and blow molding

Coraplast's Black Masterbatch range covers a wide spectrum of carbon black types, loadings, and carrier polymers. All grades feature excellent dispersion, heat stability up to 280°C, non-toxic formulation, and low moisture content.

PE-Based Black Masterbatch

Product Code	Carbon Type	Loading	Key Feature	Price (EGP/kg)
BLACK 03 FF	HAF	45%	Standard PE grade, excellent dispersion	
BLACK 10 FF	ISAF	40%	High structure black, strong tint	
BLACK 10 FS	ISAF	40%	Film-grade ISAF on PE	
BLACK 51 FF	HAF	45%	General purpose, cost-effective	
BLACK 31 FF	SRF	60%	High-load SRF, good UV protection	
BLACK 58 FS	HAF+CaCO ₃	35%	Economy grade with filler	
BLACK 15 FF	HAF+CaCO ₃	40%	Cost-efficient blended grade	
BLACK 08 FF	HAF+CaCO ₃	30%	Light-load economy grade	
BLACK 141 FF	HAF+CaCO ₃	20%	Ultra-economy, filler-heavy grade	
BLACK 179 FF	P-type	40%	Pigment-type, deep black tone	
BLACK 101 FF	P-type	40%	FDA approved food-contact grade	

* Prices are available upon request. Please contact Blau Batch for current pricing and availability.

PP-Based Black Masterbatch

Product Code	Carbon Type	Loading	Key Feature	Price (EGP/kg)
BLACK 210 FF	HMF	35%	PP carrier, injection and extrusion grade	
BLACK 93 FF	ISAF	40%	High structure on PP, strong UV shielding	

PET-Based Black Masterbatch

Product Code	Carbon Type	Loading	Key Feature	Price (EGP/kg)
BLACK 207 FY	P-type	30%	PET carrier for polyester fiber and film	
BLACK 284 FY	P-type	30%	PET grade, excellent dispersion in fibers	

* Prices are available upon request. Please contact Blau Batch for current pricing and availability.

Key Technical Properties — All Black Grades

Property	Typical Value	Test Method
Heat Stability	Up to 280°C	Internal
Light Fastness	7–8	Blue wool scale
Moisture Content	< 0.20%	ASTM D6980
Migration	4–5	Internal
Dispersion	Excellent	Visual
Toxicity	Non-toxic	Internal
Form	Cylindrical black granules, 25 kg bags	—

White Masterbatch

High-TiO₂ grades for opacity, brightness, and food-compliant applications

Coraplast's White Masterbatch portfolio covers TiO₂ concentrations from 21% economy grades to 75% premium high-opacity grades. Select grades are certified food-compliant to EU AP 89/1 and Indian IS 9833:2018. Available in PE carrier for LDPE, LLDPE, HDPE, and PP; PET carrier grades also available.

PE-Based White Masterbatch

Product Code	TiO ₂ Content	Filler	Key Feature	Price (EGP/kg)
WHITE 175 FF	75%	None	Maximum opacity — premium grade	
WHITE 71 FF	70%	None	High whiteness, no filler — bright finish	
WHITE 57 FF	60%	None	Pure TiO ₂ , food compliant (EU AP 89/1)	
WHITE 356 FF	70%	CaCO ₃	High TiO ₂ with filler, cost-effective opacity	
WHITE 71 FE	62%	CaCO ₃	Balanced TiO ₂ and filler for film	
WHITE 309 FF	TiO ₂ -eq 70%	Equiv.	TiO ₂ equivalent economy grade	
WHITE 313 FF	40%	CaCO ₃	Mid-range filler grade for general use	
WHITE 304 FF	40%	CaCO ₃	Standard filler-extended white	
WHITE 224 FF	40%	CaCO ₃	Cost-efficient 40% grade	
WHITE 220 FF	21%	CaCO ₃	Economy filler-heavy grade	

* Prices are available upon request. Please contact Blau Batch for current pricing and availability.

PET-Based White Masterbatch

Product Code	TiO ₂ Content	Filler	Key Feature	Price (EGP/kg)
WHITE 491 MD	70%	None	PET carrier — for polyester fiber and packaging film	

Key Technical Properties — White Grades

Property	Typical Value	Test Method
Heat Stability	Up to 280°C	Internal
Light Fastness	7–8	Blue wool scale
Moisture Content	< 0.20%	ASTM D6980
Dispersion	Excellent	Visual
Food Compliance	EU AP 89/1 + IS 9833:2018 (select grades)	Grade-specific
Form	Cylindrical white granules, 25 kg bags	—

Specialty Additives & Custom Color

Complete formulation solutions — available through Blau Batch

Specialty Additive Masterbatch

In addition to Black and White grades, Coraplast produces a full range of specialty additive masterbatches, all PE-based and available through Blau Batch on request.

Product Type	Example Code	Function	Typical Add Rate
UV Stabilizer	UVS 168	Protects against UV degradation in outdoor applications	1–3%
Processing Aid	PROCESSING AID 190	Reduces die build-up, eliminates melt fractures, improves film	1–3%
Slip Agent	SAB series	Reduces coefficient of friction on film surfaces	1–3%
Anti-Blocking	AB series	Prevents film layers from sticking together	1–3%
Anti-Fog	AFG series	Prevents condensation fogging on food packaging films	1–3%
Anti-Static	AST series	Reduces static charge build-up in film and packaging	1–3%
Brightener	Brightener series	Enhances whiteness and brightness of natural polymers	0.5–2%
Desiccant	Desiccant series	Absorbs moisture in closed packaging or profiles	1–5%

* Prices for all specialty additives are available upon request.

Custom Color Masterbatch — Available on Request

Color Masterbatch is available for any standard or custom color requirement.

Provide your target color reference and we will source the appropriate grade from Coraplast.

To request a color grade, contact Blau Batch with:

Target color reference (RAL / Pantone / physical sample) · Base polymer (PE, PP, PET) · Required application · Required volume (kg/month)

Official Distributor for Coraplast Masterbatch in Egypt

Product Range Summary

Product Line	Grades Available	Carrier	Price
Black Masterbatch	13 grades	PE / PP / PET	Upon Request
White Masterbatch	11 grades	PE / PET	Upon Request
Custom Color MB	On request	PE / PP / PET	Upon Request
Specialty Additives	UV / PA / Slip / AB / Anti-Fog / Anti-Static / Brightener / Desiccant	PE	Upon Request

All prices are available upon request. Please contact Blau Batch for current pricing, volume discounts, and availability. Full technical data sheets (TDS) are available for all grades.
